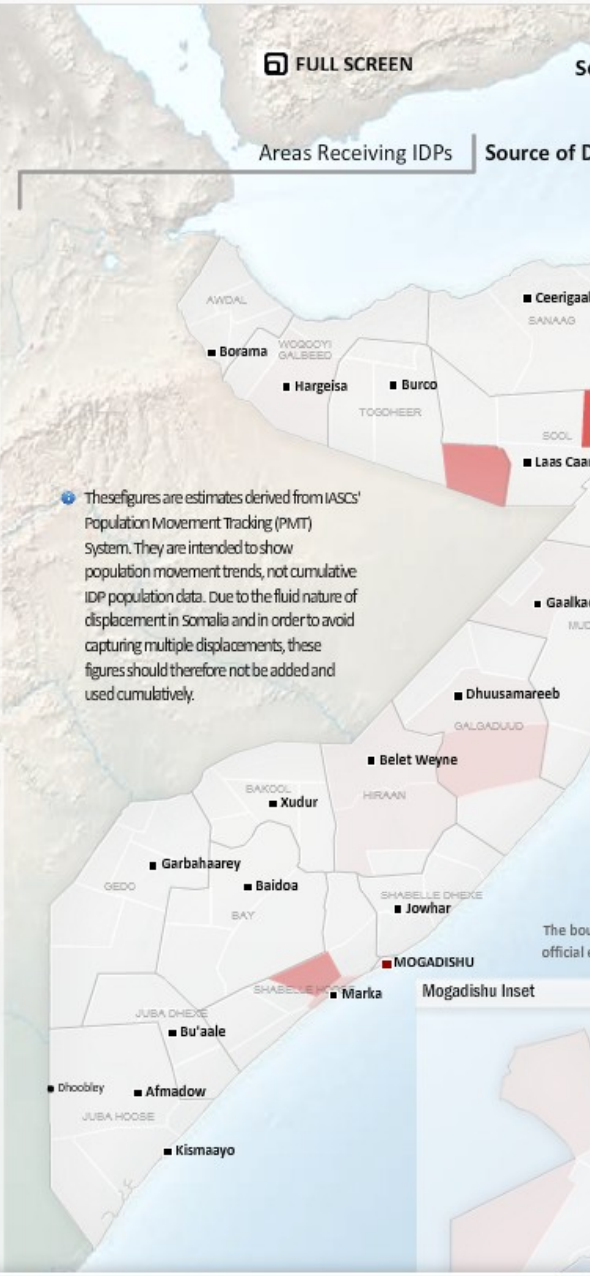
Monthly Highlights



The United Nations High Commissioner for Refugees administers camps sheltering a vast population of displaced people. These largest camps together house nearly two million people.

Hagadera Camp, Dadaab. Photo UNHCR/B.Heger

The legacy of the world's conflicts can be seen in the scores of camps for refugees around the world. This story profiles the 50 most populous settlements administered by the United Nations High Commission for Refugees. Contrary to popular belief, many of these settlements are far from temporary, and most of the largest ones are in Africa and South Asia. In total, these camps are home to over 1.9 million uprooted people. The massive Dadaab complex in Kenya (which includes the Hagadera, Dagahaley, and Ifo camps) has existed for years, even decades. As the imagery in these views shows, many refugee settlements are located on arid or marginal lands. With scarce local resources from which to draw, most residents of these facilities depend on **external aid for survival**.

Fifty Most Populous Refugee Camps

The United Nations High Commissioner for Refugees administers camps sheltering a vast population of displaced people. These largest camps together house nearly two million people.

Ifo 2 West

Kenya

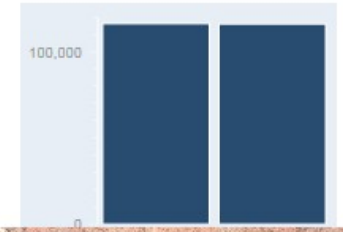
Rank: **3**

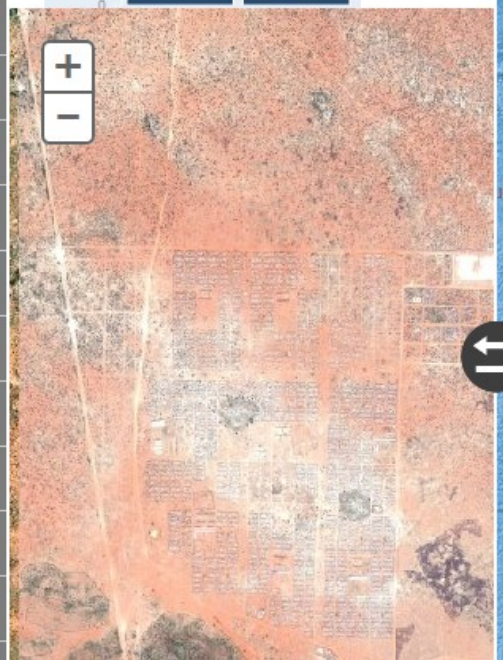
Total Refugee Population: **116,440**.

The residents of Ifo 2 West are primarily from **Somalia**.

Image was made prior to the camp's establishment.

This camp's population is comparable in size to **Springfield, Illinois**.





Developed by the UNHCR Field Information and Coordination Support Section (FICSS) Email FICSS -- DISCLAIMER -- The borders and country names on this map do not imply official endorsement by the United Nations. Data may be unavailable for some locations during certain time periods. The historical country borders were adapted from CShapes - Weidmann, Nils B., Doreen Kuse, and Kristian Skrede Gleditsch. 2010. The Geography of the International System: The CShapes Dataset. International Interactions 36 (1).

UPDATE: AL ZAATARI REFUGEE CAMP, MAFRAQ GOVERNORATE, JORDAN

Analysis with WorldView-2 Data Acquired 7 January 2014 and WorldView-1 Data Acquired 30 September 2013

This map illustrates satellite-detected shelters and other buildings at the Al Zaatari refugee camp in Mafraq Governorate, Jordan. As of 7 January 2014 a total of 28,093 shelters were detected as well as 1,735 infrastructure and support buildings within the 531.8 hectares of the camp. Between 30 September 2013 and 7 January 2014, a total of 4,982 shelters closed or were moved, and a total of 6,868 shelters were constructed, and the number of shelters has thus increased by about 2,171 since the previous UNITAR/UNOSAT assessment. This indicates an approximate 8.4% increase in the number of shelters between 30 September 2013 and 7 January 2014. This is a preliminary analysis and has not yet been validated in the field; structure locations subject to a spatial error margin of +/- three meters. Shelters grouped under plastic sheeting were estimated by average household size and may be a source of error. Please send ground feedback to UNITAR/UNOSAT.
